

Babygirl

August 17, 2023

Baby girl wasn't just a dog but a family member! She cared and watched over the kids even though they weren't hers to keep and sometimes rough w/her but as a mother, she knew to always be gentle as she treated every child as her own! She was wild and unique in every way that she was free spirited and couldn't be held down by human binds. Nothing could shackle her from collars, ropes, chains, wired leashes, and as putted couldn't even be tackled for football practices as she was OG and broke everyone's ankles when attempted to practice to make them better. She was an inspiration and also can show that when loved, you can outlive your expected life to cherish every moment w/the ones you love!... you will always be w/us in our every movement in life like the guard dog you are to make sure we are all safe.!
