

Beeper "Badass" Marie Howard-Selvidge

January 8, 2016 - January 29, 2024

Beeper "Badass" Marie Howard-Selvidge
January 8, 2016-January 29, 2024

Beeper Marie was born in Skellytown TX to FurParents Handsome and Dee Dee and human Grandpa Kenneth. She crossed the rainbow bridge January 29, 2024 in Pampa TX after losing her battle with distemper. She was 8 yrs and 11 days old.

She's survived by human Mom Leslie, litter mate/ sister/ best friend- Ruby Lou, one daughter Ruka aka "Wookie" and fur sibs Sadie, Buddy and Butter. She is preceded in death by her fur parents and human dad Adrian.

Beeper gave much support to her dad daily as he battled many health issues. They had a special bond and played every chance they got. She provided neverending comic relief. She was not a friendly dog but she loved her family and the ones she loved she loved very much.

Beeper loved car rides and road trips she was a "go" girl. Her favorite destination was any drive thru that had treats for her. Beeper was a foodie. She prided herself in being a carnivore. She loved to eat meat and steak was her favorite. She loved to play fight with Ruby or Wookie.

Beeper enjoyed her daily routine which was to escape the yard and make her

rounds through the neighborhood checking everything afterwards she relished laying in the morning sun til time to eat again.

Beeper was full of personality and she was all heart. Her smile and playfulness were contagious. She was adored by all that knew her. We are at a great loss with her current passing and her dad's such a short time ago. They are both deeply missed by those of us they left behind.

We find our strength and comfort in knowing they are together in heaven in perfect joy and love with no more tears, sickness or sorrow waiting for us to join them.

Tribute Wall
