

Bonecrusher

November 12, 2025

We found Bonecrusher in our backyard at two weeks old. He was so tiny, but you could see that he was strong. With a lot of extra care and love, he grew up to be a beautiful cat. He was extremely sweet, talkative, loved to cuddle, and loved attention. He had a brother and sister who he loved to annoy all day long but they wouldn't have him any other way because they took care of their baby brother anyway. Despite not having a long life, he'll be loved and remembered for the rest of ours.
