

Chibi

February 9, 2023

"There's so much I can say about Chibi, that he was my Bibi, our little Brat, that there will be no other dog like him, not to us. He was so, so smart, and so sweet. A grumpy old man at heart, all he wanted was to sleep at our feet, or in our lap. He was always there when he was needed, waking up one of us when her asthma was acting up, and helping with mental health when it was just too much. We swear he was part cat, jumping from one place to the next, which is what inspired his name. 'Leap before you think' was that game's motto, and he embodied it. He even changed the minds of one of us, who hated chihuahuas because of their stigma, only to realize she was wrong, because Chibi showed her that. Chibi was truly a one of a kind dog, one we were all blessed to have in our lifetimes. He was goofy, playing and worming on his back when he first saw you for the day. He loved Greenies, and coffee if you weren't paying attention! There's so much I could say, and while he was taken from us all too soon, he was a Hero in the end, and knew more love in his life, then ever possible. I'll always keep him in my heart, all of us will, and I hope that, from this brief summary, you can see just what sort of dog he was. 7 years wasn't enough time, but we loved him for every moment of it. He will be missed every day, and loved ever more. We'll meet again. "
