

Duke

April 13, 2023

Duke joined his forever family when he was four years old. He loved his mom from the very start, so much he never wanted to leave her side. Moving around with her for college and the beginning of her career for 7 years, he spent this last ten months of life in Amarillo. During this time he went on many adventures and discovered his love for the mountains and fishing. He was obsessed with all things involving fetch and never knew a stopping point. He will be missed more than could ever be imagined.

Tribute Wall

RA

“ On one specific day I remember I was dog sitting duke for a day. I decided to take him on a walk around the block and he was so happy anytime we came across a patch of flowers. He stopped right in the middle of them and looked at me, and I just had to snap a picture. He was the sweetest boy and will be so greatly missed.
