

Duke

September 23, 2025

Duke came into our family at about 10 months old as a Rescue. He had a very hard life in his first 10 months prior to coming to our family. When we found him, he was very emaciated and only weighed half the weight he should have. We slowly nourished him back to health and he immediately became a part of our family. It was love at first site and we bonded immediately. He truly was such a gentle giant. Duke has left such a huge hole in our hearts and we miss him dearly.

Rest in Peace Duke til we meet again ♡
