

Fluffy

August 15, 2004 - October 28, 2023

Fluffy was born August 15, 2004 and Graced another family for two years of her life before she was adopted by me and my children she was very loving from the moment we got her. She was definitely a cuddler especially at night she always slept right next to me. My son was one year old when we first got her and they grew up together. My daughter was six and constantly got called Fluffy by accident . She was very smart and would let me know when she was out of water or food, and she always came when I would say “come meow”. She loved finding socks and walking around the house crying with them and would run after my son for his soft pets they were the best. She was definitely considered one of my children and very loved. She was the head of the furbabies and they all respected her so much. We were so blessed to have her for 17 years of her life as she was 19 when she passed, she tried to hold on as long as she could, because she knew that I was going to be in so much pain when I lost her, but I assured her that I would be OK and I would never forget about her and I told her. She lived a very long and wonderful life and we were truly blessed to have her. She will always be missed my little meow meow.
