Ten years ago my ex seen a puppy a teacher posted in Amarillo/Canyon lost pets. I've attached a screenshot of the post. She ended up having parvo and survived. She has been my best companion for almost a decade. She still wasn't a barker except in her territory of my back yard. She loved riding in my dad's 83 Chevy. She was the sweetest girl and I miss her so much.

and up in a shelter if i didn't house her until she finds a really good home. This little girl needs a forever home and some love. - She is 90-95 incredibly sweet and cuddly. Hasn't barked, growled, or bitten at all. Can anyone take her?!
