

## Hunter

September 25, 2023

Hunter was a black lab/Akita mix. He was born July of 2011, and He came to me at 5 weeks old. He was hilarious the way his tail never wagged back and forth, it spun in circles like a helicopter blade. He also talked like a husky does, a kind of open mouthed yell. That was his happy sound, and he did it a lot. His favorite thing to do was chase squirrels and rabbits. While he might not have ever liked the vet, He was always the most patient of dogs with children. He was such a relaxed dog, you could dress him up or do other silly things and he loved it. The picture was of him with googly eyes stuck to his rear. I'm forever going to miss him meeting me at the door with his funny tail spinning.
