Josie

October 15, 2023

Josie was the ultimate country girl who celebrated life every day. She was always excited and ready to go care for the cows, ride the tractor, and run any errands involving the farm. She was a protector and always alerted us of anything that we needed to be aware of. She enjoyed visiting Granny's house where she took over Granny's kitchen and her chair. When she got home, she was excited to greet her "babies" with lots of love (and shakes). Josie was always full of love and affection, whether it was curling up with Daddy in his recliner or giving him kisses on his head. She was a great snuggle buddy when it was time to go night-night. Josie left us way too soon, but what she left us with is a much greater awareness of our surroundings, the way she always was for us.
