Lillie Taff

June 23, 2017-February 10, 2026

When our daughter first saw your brother Deebo, she wanted us to look at the litter he came from. At first, we were like no but we brought you and another family member brought your sister home. Little did we know the three of you would have a bond that could never be broken. In those long nine years we lost some family members and then five years later we lost your sister and your brother, but through it all you were the final constant of that great time they brought so much pleasure and excitement in the year 2017. And now that you have passed on, you are the final piece that connected every thing from that time. So as you cross the rainbow bridge just know that you'll never be forgotten. We know you'll be looking down with everybody and we hope you are reunited and having fun and running pain-free with Deebo and Bizzy.
