

## Lucy

August 6, 2025

Lucy 'the Baby Girl' came into and changed our lives as a 'happy and hyper' 3 or 4 month old puppy on December 19, 2013.

She was so smart-being housebroken in just 3 or 4 times of being shown to 'ring the bell' to go outside. She amazed us with her intelligence.

She loved to 'catch' the ball and was as fast as the wind. She loved going for a walk to see her pals, Dude, Instigator and Sugar Bear, and to go running with them. She was ferocious against all other animals in her yard, but loved people. She was our door greeter but never barked at anyone.

She taught me how she wanted her food prepared and got super excited over her 'treats' which were originally used to teach her how to sit, stay, shake and lay down. She was such a fast learner.

She loved to GO!! She wanted to Go with us everywhere! Even in her last days, she still got up to 'go' with her Daddy to the coffee shop. She was never a minute's trouble. Always kept quiet until we woke up. She was the perfect dog!

She never 'stole' our food but rather stole our hearts.

We know she is in heaven running wild with all our other pets and with her best buds and family members. She was the best girl ever. We miss her so much.
