

Lucy

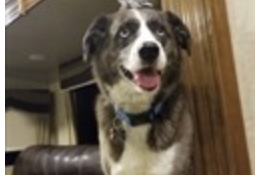

January 9, 2025

Lucy was 12 years old. We travel for work and she went with us. She loved adventure and has explored 17 states!! Snow was her favorite, but she wouldn't pass up any moment to get to go. She was so loving and never wanted to slow down. She was extra loving in the morning and loved to play with her sister, Avery. We miss her so much and our home feels so empty without her. Thank you for taking care of her so she can join us back on the road where she belongs
