

MJ

June 8, 2026

MJ lives a great life. He was a beach dog spending most of his life on the coast. He enjoyed being out wide and playing with his human brother. When moving to Tulia MJ got to experience snow for the first time. Man let me tell you he never looked so happy as he did playing in it. MJ was more than just a pet he was my child. He was my protector, my car buddy he was my best friend.
