Mr. Max

June 10, 2010-September 29, 2025

Max aka Maximus Bones the Third was a wonderful buddy and friend. His first owner was not kind to him so my sister in law took him in and my husband's Mom wanted us to adopt him so he found us. He loved his stuffed animal toys and would treat them as his "babies." Loved tug of war and was always brave. He even saved a neighbor's house that was on fire one time by barking to a loud noise outside (will never forget it) He's preceded in death by his cat sister Annie (passed away back in May of this year). He's survived by a loving Mama and Dad, a human little sister, a cat sister and his bulldog brother. He always followed Mama around to do chores like laundry, cooking food and folding clothes. He was always there no matter what, it is difficult to not hear his little feet trotting around the house to help out in the way he knew how. He showed us what unconditional love was and will be missed since he was an unofficial emotional support animal.
