

Penny

May 6, 2024

Penny; our little angel who came straight to our door as if it was meant to be for us to have her. We took her in and gave her a loving home. She was so smart and mischievous and LOVED to cuddle. She loved when we would let her up on our lap when watching movies. Her favorite movie was the dinosaur movie from Disney. She loved to play but mostly with her daddy, he was her favorite person in the whole world. She knew no stranger and would love when she had people's attention. She loved to play with the kids from our block, she would disappear from us for a couple of hours when kids were outside playing and came back when they went home or she was ready to go home. Penny had the most sweet tender eyes and face and the cutest personality, that's what captivated everyone's heart. She will forever be missed; our sweet Penny princess you will always be in our hearts.
