

## Piddles Everett

July 7, 2024

Piddles was a lover, but also what fighter she proved to be! Six weeks from turning 18! She had battled cancer for the last 3.5 years and hyperthyroidism for the last 9.5 years. She was by my side through almost half of my life and definitely a loyal companion through it all. Pids is now reunited with our girl, Hope. They taught me the meaning of unconditional love and I'm forever grateful I was their human! Run free and wild together my sweet girls! We love you, Pids.
