

## Shelbie

November 29, 2010 - August 5, 2025

Shelbie was born on November 29, 2010. I had never heard of a Morkie when I saw her picture for the first time I fell in love. She was basically solid black when I got her with a little bit of brown. She turned her silver color pretty quick as she grew. She was such a good puppy and grew into a great companion. She did not bark much and did not chew up things. I got her when I lived in Dalhart and later we moved to Amarillo. She has been there for me through lots of changes in life. She loved treats and she could hear the bag no matter how quiet you tried to be. Her favorite was cereal, especially honey nut cheerios. She loved everyone she met and just wanted to be loved on. She would get annoyed with her sisters because they would want to play and she got to the age where she did not care about that. She just wanted to relax and chill. When she got to where her hips were starting to hurt you would not know it because she could sure jump when the cereal box came out. She will be missed so very much!! I hope she gets all the cereal in the world in dog heaven!
