

Sir Hundley Heath

April 27, 2026

Sir Hundley, or Hundley Bear, was born on July 17, 2025. From the moment we got him, he just fit perfectly into our family. Him and his brother, Wyatt, were just the best of friends.

Hundley was small, but big in heart and was our little dinosaur. Him and his little t-rex legs loved to "play" (really destroy) all of his dinosaur toys he got. His greatest love was going shopping on Saturdays. He knew when it was time and always made sure he was ready to go.

Hundley crossed the rainbow bridge on April 27, 2026. 9 months too young. We lost not only family that day, but a little piece of our heart. He left paw prints on our hearts that will last forever.
