

Snyder

July 31, 2023

Snyder was my guardian angel for 14 years he was always by my side he saw me through some of the toughest times in my life.

he managed over all of the construction sites for me, and all the crews expected him there every day.

He loved to chase the Bunnys that live on his Ranch and the chipmunks that lived on his land in the mountains he enjoyed the sunrise and playing in the water.

he let my granddaughters paint his nails and use him as a pillow for movies nights.

he liked to snuggler up to a nice fire and take a nap in the winter.

no words i can say will encompass the bond we have he was my soul mate.

There will never be any one like him again he will be missed and loved.
