

## Sophie

March 10, 2023

This is Sophie , she passed at the age of 13 years. Sophie was a momma to her twin flame daisy they did everything together. Sophie was spunky and wild she loved playing chase with her owner, and loved walks and always begging for treats by scratching on the cabinets. Sophie would growl at you when she wanted something right away. I was blessed with the 13 years I had with her. She will forever be a part of me.

# Tribute Wall

JB

“ one of my favorite memories of Sophie is when we moved out of out home town to a really small town and she would escape and roam the town to where even the covienient store workers knew her and would welcome her in. She went on adventures with my siblings and I and trully expressed her true self□ she was always so happy no matter the circumstances and where we went.
