

Stella

July 23, 2023

Stella loved "playing games" by stealing peoples socks and shoes, just so they would chase her. 😊 She loved going on walks/hikes in the beautiful mountains of Colorado and going for quick swims in ANY water that she could possibly find!

She was very empathetic and always sensed when someone needed comfort. She was very protective of her family, especially her little 6 year old human brother. She always looked like she had a mischievous smile on her face, like she was always up to something.

Stella touched many lives, bringing smiles and laughter to those around her. She will be greatly missed.

We love you, Stella. Forever and always pretty girl. ❤️ 🐾

Tribute Wall

“ *Stella, this beautiful sweet girl was our grand dog. She was an amazing sweet loving soul. Stella loved everyone she met, and everyone would come to love Stella in a brief few minutes of knowing her.*

Stella liked to go shopping for whatever she could grab, she was an equal opportunity shopper. She would grab clothes, shoes, dish towels, anything to make you chase her. She was a character, she loved to play, loved walks, loved being around people. Stella loved the mountains, and water, she didn't care if she got wet, she'd get into it and play.

Stella touched alot of people's lives and she left a lasting imprint on our hearts and our souls. She will be missed so much, but now she is playing with our other pets across the rainbow bridge, and we know we will see her again. The promise of eternal life in paradise.

We love you Stella, we will never forget you, and will keep your memory alive in our hearts and minds forever sweet girl! My Rella you are beautiful baby girl, we will take care of your family down here until we are all together again. Rest in paradise.
