

Stella

February 26, 2025

Stella lived a very full life for 13 1/2 years. She was always bubbly and having a good time. She loved her walks then hopping into the pool to cool off, playing fetch with me in the backyard in her landscaped garden area, often hiding in the tall grass plants. She relaxed with trips in the truck and going camping with us. She had a brother, Cruz who passed away 5 months before her and she missed him after he was gone. Stella was very loved by Robin and myself and she will be missed beyond words!
