

Stinkers

May 24, 2023

Stinker's, a Striped Skunk, was Wild West Wildlife's 1st EVER Education Ambassador. He lived to be 8 years old and was an amazing ambassador for his species, changing minds about the way people look at skunks. He was gentle, sweet, and loyal. His favorite to do was eat and least favorite thing was baths. He will be greatly missed by his Wild West Family of 30+. There will never be another like him.
