

## Teddy Rielo

March 13, 2026

Teddy was a great dog. He was the "best-est boy! He was so affectionate and loving. He was an amazing "big brother" to our 2 boys. His name were their first words. He was an exceptional companion to me, a stay at home mom. We have been together since I got him in the middle of January of 2011. I assumed his birthday was between first and second week of December 2010 so I just chose December 8th. He looked like a teddy bear when he was a puppy so I named him Teddy. Teddy was there before my husband and I got married in May of 2011. He was our "Best Dog".

He wasn't the best guard dog though... he wanted to say hi to and smelled all humans! But we loved him so dearly.

Having him lived 15 years was unexpected. He almost died so many times. He had chicken liver allergy when I first got him when its supposed to be a super food for dogs; he got ran over by a motorcycle as he "escaped" the house to play; he ran away from a dog boarder's house so he can go home to our house and almost crossed a main street; he got attacked by a husky; he got attacked by a pit bull mix; but eventually, it was old age and its conditions that led to his painless sleep.

You are so loved by everyone, Teddy. Everyone was saying you were the best dog! We love you and we miss you so much!
