

Tony

January 6, 2025

Tony: He came into our lives in 2014. We rescued him from people who had abused him since he was a baby.

Tony was born and raised in S. California and when the family moved to Texas he also came alongside his other two brothers. Tony learned to get along well with his brothers and family and more friends, he was not aggressive, he was very friendly. Over the years, Tony started to have problems with his eyesight until he didn't look anymore. But he never stopped being sad and continued to love food. Then more sickness came and the decision was made to put him to sleep to not to watch him suffer. He will always be in our hearts and we miss him very much, he was part of our Family ♡ 😞
