

## Wally Brooks

May 11, 2026

We adopted Wally in 2014 from the Humane Society. He filled our home with love, patience, and quiet joy. He adored playing with his kid siblings Laycie and Bronx, fur siblings Xena, Gus, Loki, and Odin —and welcomed every foster from Rebel Animal Rescue with a gentle heart and endless kindness.

Wally loved to roll in the grass and lay in the sun, the little things in life. He never missed a chance to curl up on a blanket or any spare clothes left on the floor, as if every soft spot had been placed there just for him. But his favorite thing was waiting patiently for his chance to finish off the milk from the bottom of the cereal bowl, a tradition that is now missed dearly.

He was truly the best little guy: loving, loyal, patient, and deeply cherished. The house feels quieter without him, but the love and memories he gave us will always remain.

Forever loved. Forever missed. Forever riding into the sun.
