

Willy

October 24, 2024

Willy had a rough early life, in and out of doggie jail, until he was adopted by his forever family. Once adopted though, Willy stayed on the straight and narrow. Loving and helping his family through many tough times as well as many good times. Always there to greet us when we came home and the first one to jump on the couch for belly rubs or just to pretend he was a lap dog. Although deathly afraid of storms, Willy would hang out and play with his duck while his humans played pool. He loved long walks and going to the groomers. But, loved coming home and hanging out just the same. He will be missed by his humans and his doggie sister Becca.
